

## 31509B ABSOLUTE FINISHING HARDENER

Spraying

### PROPERTIES

Polyisocyanate hardener compliant with all ABSolute Finishing base coats, monolayer & clear coats

- Mixing rate 1/6 to 10 in weight
- Drying process: 30' at 80°C
- Application process: low pressure spraying equipment which enables a on line controlled dosing of the hardener.

### TECHNOLOGY

Polyisocyanate
